Call for Papers

The Organising Committee invites authors as well as participants. The symposium language is **English**. Authors are kindly asked to complete the Registration Form and send it as soon as possible to the Secretariat of the Conference. The deadline for the submission of abstract of 200-300 words is **May 1, 2005**. Papers will be subject to review by an international paper reviewing committee. The authors will be notified by **May 10, 2005** about the results of reviewing. Authors must submit 2 hard copies and a soft copy on 3,5" diskette (or CD) of full-length camera-ready manuscript prepared according to instructions, which will be sent to authors together with the notification of acceptance. The deadline for the submission of the final paper manuscript is **July 15, 2005**. All authors are kindly asked to submit conference fee not later than **August 1, 2005**. Conference fees not received by that date may result in the paper being excluded from the proceedings.

Scope

The main objective of the Conference is to provide a European forum to exchange knowledge, experience, results and information related to broad aspects of the advanced technologies and manufacturing. This conference is taking place every year aiming to exchange information among Western European countries and developing countries of the Middle and East Europe.

The scope of the Conference covers scientific, technological and practical concepts concerning research, development and realisation of contemporary technology and manufacturing, offering a unique opportunity for experts to meet and exchange ideas.

Main Topics

The Conference includes topics from all fields of advanced technology and manufacturing. Topics of interest will be included in six conference sections:

- A) **Product Development**
- B) **Production Technologies and Materials**
- C) **Logistic of Production**
- D) **Information Technologies, Education and Quality Assurance**
- E) **Measurements, Diagnostics and Maintenance**
- F) **Management and Controlling**

We expect to refine and revise the set of topics with participants according to the position statements given in the abstracts. Applied, theoretical, results-oriented and speculative papers from both academia and industry will all be considered for inclusion.
